All,

I have run a document compare on all the files FDEP sent us on Aug 8 vs the latest previous versions we had of those documents (most were Sept 2018). Many of the documents had no changes, a few had minor changes (mostly formatting), and 4 documents had a lot of changes though many of those were also formatting or grammar. I've attached the 4 docs with the large number of changes for everyone to review. I've also uploaded all the documents to sharepoint which can be accessed from the links below. A note on the documents on share point, if the file ends with "compare", there were changes, if not the file name ends with "no change".

I've also attached 3 documents that we didn't have earlier versions for review- FAR_NOPR_330 FINAL, 62-340DataForm, and ComparisonFedStateDelineationMethodology-233-11h
